

Part-time ENAC graduate Engineer via Apprenticeship (E.U)

Ecole Nationale de l'Aviation Civile

[Part-time ENAC graduate Engineer via Apprenticeship \(E.U\)](#)

Commission
des titres d'ingénieur

Engineering degree accredited by the French Commission des Titres d'Ingénieur.

Aeronautical excellence through practice

Profession

The ENAC graduate engineer via apprenticeship benefits from the same degree and skills as full-time graduate ENAC civil engineer, with more significant professional experience.

The graduate is destined to work in the aeronautical industry, in the design, development and operation of systems or services. The graduate is able to work in major engineering construction or aeronautical and aero-spatial operation companies, as well as in airlines. Their skills and knowledge are internationally recognized.
