[Master of Science in Aerospace Systems - Navigation and Telecommunication \(MSc AS-NAT\) ///](#)

[Master of Science in International Air Transport Operations Management \(MSc IATOM\) ///](#)

[Master of Science in International Air Transport Operations Management \(MSc IATOM\) in Abu Dhabi ///](#)

[Master in Human-computer interaction \(in French\) ///](#)

What is a Master of Science ?

Masters of Science are national degrees accredited by the French Ministry of Higher Education. A Master of Science is a 2-year full time program. It is usually aimed at graduate students who already have a Bachelor degree. Focused on specific scientific and technical fields, ENAC Masters of Science benefit from all the expertise of its research teams to meet the growing needs of the global Air Transport market.

ENAC Masters of Science are taught entirely in English for an international public and are open to a wide range of bachelors in engineering or science.
